Details concerning the payment

Due to the fact that the beginning of June is a quite busy time period concerning events, the hotels in Dublin are two to three times "overbooked". Therefore the host and CIPAC, respectively, are not in the best position for any kind of negotiation.

For example, the hotel has not accepted an arrangement that CIPAC did the previous year to avoid that the participants have to give their credit card number before arriving the hotel.

The reason for debiting the credit card already at the time of booking the room is also not in the hands of the host and CIPAC.
