e-mail : nunchana@doa.go.th

1. – Essential Information

Reporting Period/year	Number of samples analyzed (1)	Number of non-compliance (2)	Uses (3) (optional)
January - December 2007	3112	185	Agricultural use : Public Health use : 120 Home and Garden use : - Other use (please specify) : -

(1) Any sample, including those of active inspection and registration control samples.
(2) Non-compliance with FAO/WHO or national pesticide specifications.
(3) If possible, please indicate the use/destination of the pesticide analyzed If the pesticide has various uses, it should be included only in one category and should be explained under item 2 (comments).

2. - Any comments and/or background information

The majority of the pesticides analyzed were used in agriculture. From the total number of samples analyzed (3112 samples) 586 samples from entry points, 1056 samples from markets, 200 samples for registration, 50 samples form governments section and the remaining 1,165 samples from private sections. The registration samples were analyzed for the content of active ingredients, physical and chemical properties according to FAO specifications.

3. Information regarding CIPAC activities

Pesticide Research Group Laboratory has participated in following collaborative trials

- indoxacarb by Du Pont Crop Protection
- mefenpyr – diethyl by Bayer Crop Science AG
- cyprodinil by Syngenta Crop Protection
