

# Annual CIPAC/FAO/WHO Report Form on the Quality Control of Pesticides

Country/Name and Address of the Institution (contact person):

UK

Chemicals Regulation Directorate of the Health and Safety Executive

Mallard House,

3, Peasholme Green

York, YO1 7PX

Contact Person: Sonia Tessier ([sonia.tessier@hse.gsi.gov.uk](mailto:sonia.tessier@hse.gsi.gov.uk))

## 1 - Essential Information

| Reporting period/year:     | Number of samples analyzed (1) | Number of non-compliance (2) | Uses (3) (optional)   |
|----------------------------|--------------------------------|------------------------------|---|
| April 2007-<br>March 2008  | 26                             | 2                            | Agricultural use:<br>17 (2007/08)<br>31 (2008/09)                           |
| April 2008 -<br>March 2009 | 49                             | 5                            | Public Health use: 0<br>Home and Garden use:<br>9 (2007/08)<br>18 (2008/09) |
|                            |                                |                              | Other uses (please specify):  |

(1) Any sample, including those of active inspection and registration control samples.

(2) Non-compliance with FAO/WHO or national pesticide specifications.

The reason of non-compliance: In all cases active ingredient content outside FAO specification.

(3) If possible, please indicate the use/destination of the pesticide analyzed. If the pesticide has various uses, it should be included only in one category and should be explained under item 2 (comments).

## 2 - Any comments and/or background information

The results for 26 samples analysed in 2007-2008 were not available at the time of last year's report so have been included here for completeness.

For the samples that were non-compliant in 2007/08: 1 professional product and 1 home garden product

For the samples that were non-compliant in 2008/09: 1 professional product and 4 home garden products.

## 3. CIPAC Activities

The UK laboratory that conducted the monitoring analytical work (CSL, now known as FERA = The Food and Environmental Research Agency) did not participate in any CIPAC collaborative trials during the last year.
