

Secretary's Report

2025-2026

The 54th Management Committee Meeting and the 59th Council Meeting was held on Thursday, 19th June 2025, at in the Galway Bay hotel in Galway, Ireland.

In the time period covered by the report nine full scale collaborative studies were initiated. The results were planned to be presented on the technical meeting in Krabi.

Reports of six full scale collaborative trials, two small scale trials, one method extension, a revision of MT method and the draft CIPAC guideline were presented.

The status of ten provisional methods was changed to full CIPAC method. Eight methods were accepted as provisional CIPAC methods.

Four colleagues were elected as correspondent members and one colleague as full CIPAC member. One colleague was elected as honorary life member after his resignation from the membership.

The CIPAC web site has been renewed and continuously updated with the available new information, including errata, announcements of new trials, new pre-published methods, information concerning the next meeting.

The accepted provisional methods are available as pre-published methods on the CIPAC website.
