

CIPAC MT / Document no.	Title	Status CIPAC ⁽¹⁾ (Meeting + Year of presentation)	Year of first Publication ⁽²⁾ / Reference ⁽³⁾	Comment	Replacement for MT's and / or MT version
MT 30.6 (CIPAC/5154)	<i>Water determination by Karl Fischer method</i>	full (Panama 2018)	2018 / Handbook P page 222	Revised method	CIPAC MT 30.5 (Handbook H) is “no longer supported and should not be used with new specification proposals but remains valid in support of existing specifications.”
MT 41.1 (CIPAC/4732)	<i>Dilution stability of aqueous solutions</i>	full (Ljubljana 2010)	2010 / Handbook O page 174	Revised method	CIPAC MT 41 (Handbook F) is “no longer supported and should not be used with new specification proposals but remains valid in support of existing specifications.”
MT 46.4 (CIPAC/5217)	<i>Accelerated storage procedure</i>	full (virtual 2020)	2019 / Handbook P page 232	Revised method	CIPAC MT 46.3, MT 46.3.4 LN, MT 46.3.5 MR are “... is no longer supported and should not be used with new specification proposals but remains valid in support of existing specifications.” MT 46.3.4 LN formulations (CIPAC/4956) (Handbook O) MT 46.3.5 MR formulations (incorporated type) (CIPAC/5045) (full 2017 / Method pre-published on CIPAC homepage only)
MT 47.3 (CIPAC/4835)	<i>Persistent Foam</i>	full (Kiew 2013)	2013 / Handbook O page 177	Revised method	MT 47.2 (Handbook F) is “no longer supported and should not be used with new specification proposals but remains valid in support of existing specifications.”
MT 73.1 (CIPAC/4769)	<i>Total hardness of water</i>	full (Dublin 2012)	2012 / Handbook O page 179	Additional method	MT 73 (Handbook F) remains valid and will not be replaced by MT 73.1.
MT 160.1 (CIPAC/5323)	<i>Spontaneity of dispersion of suspension concentrates</i>	full (Braunschweig 2023)	2022 / CIPAC homepage	Revised method	MT 160 (Handbook F) is “no longer supported and should not be used with new specification proposals but remains valid in support of existing specifications.”
MT 171.1 (CIPAC/5003)	<i>Dustiness of Granular Products</i>	full (Athen 2015)	2015 / Handbook P page 235	Revised method	MT 171 (Handbook F) is “no longer supported and should not be used with new specification proposals but remains valid in support of existing specifications.”
MT 172.2 (CIPAC/5155)	<i>Flowability of Granular Preparations after Accelerated</i>	full (Panama 2018)	2018 / Handbook P page 241	Revised method	MT 172.1 (CIPAC/4733 / Handbook O) is “no longer supported and should not be used with new specification proposals but remains valid in support of existing specifications.”

CIPAC MT / Document no.	Title	Status CIPAC ⁽¹⁾ (Meeting + Year of presentation)	Year of first Publication ⁽²⁾ / Reference ⁽³⁾	Comment	Replacement for MT's and / or MT version
	<i>Storage under Pressure</i>				
MT 178.3 (CIPAC/5321)	<i>Attrition Resistance</i>	full (Braunschweig 2023)	2022 / CIPAC homepage	Revised method	MT 178 (Handbook H) & MT 178.2 (Handbook K) are “no longer supported and should not be used with new specification proposals but remains valid in support of existing specifications.”
MT 179.1 (CIPAC/4891)	<i>Degree of dissolution and solution stability</i>	full (Liege 2014)	2014 / Handbook O page 189	Revised method	MT 179 (Handbook H) is “no longer supported and should not be used with new specification proposals but remains valid in support of existing specifications.”
MT 180 (CIPAC/4794)	<i>Dispersion Stability</i>	full (Dublin 2012)	2012 / Handbook O page 192	Method extension	Extension without new version number Change of scope: Only SE, DC and OD formulations for registration / specification with min + max field use concentrations. Change of Note 1: clarify “screening method”, only for early development not for registration and quality control.
MT 184.1 (CIPAC//5156)	<i>Suspensibility</i>	full (Braunschweig 2019)	2019 / Handbook P page 245	Revised method	MT 184 (Handbook K) is “no longer supported and should not be used with new specification proposals but remains valid in support of existing specifications.”
MT 185.1(CIPAC/5353)	<i>Wet sieve test</i>	provisional (Braunschweig 2023)	Dez 2023 / CIPAC homepage	Revised method	MT 182 (Handbook J) & MT 185 (Handbook K) have been combined into a single method for wet sieve test. When MT 185.1 becomes full method, MT 182 (Handbook J) & MT 185 (Handbook K) will be “no longer supported and should not be used with new specification proposals but remains valid in support of existing specifications.”
MT 190.1 (CIPAC/5260)	<i>Determination of Release Properties of lambda-Cyhalothrin CS Formulations</i>	full (Braunschweig 2023)	2022 / CIPAC homepage	New method	

CIPAC MT / Document no.	Title	Status CIPAC ⁽¹⁾ (Meeting + Year of presentation)	Year of first Publication ⁽²⁾ / Reference ⁽³⁾	Comment	Replacement for MT's and / or MT version
MT 193 (CIPAC/4731)	<i>Attrition of tablets</i>	full (Ljubljana 2010)	2010 / Handbook O page 204	Revised method	MT 193 (Handbook L) is “no longer supported and should not be used with new specification proposals but remains valid in support of existing specifications.”
MT 194 (CIPAC/4580)	<i>Adhesion to Treated Seed</i>	full (El Salvador 2009)	2009 / Handbook N page 145	Revised method	MT 83 (Handbook F) & MT 147 (Handbook F) are “no longer supported and should not be used with new specification proposals but remains valid in support of existing specifications.”
MT 195 (CIPAC/4827)	<i>Wash resistance index of LN</i>	full (Kiew 2013)	2013 / Handbook O page 195	New method	
MT 196 (CIPAC/4771)	<i>Solution Properties of Water-Soluble Tablets (ST)</i>	full (Dublin 2012)	2012 / Handbook O page 210	New method	
MT 197 (CIPAC/4894)	<i>Disintegration of tablets</i>	full (Liege 2014)	2014 / Handbook O page 212	New method	
MT 201 (CIPAC/5152)	<i>Discharge rate of trigger dispenser</i>	full (Braunschweig 2023)	2022 / CIPAC homepage	New method	
MT 202 (CIPAC/5153)	<i>Discharge rate of aerosol dispenser</i>	full (Braunschweig 2023)	2022 / CIPAC homepage	New method	

(1) Status as CIPAC MT (provisional / full), Year and site of CIPAC Meeting where the MT method was first presented.

(2) Year of publication = Year in which the MT method was published on the CIPAC homepage.

(3) Reference = New / revised CIPAC MTs are first published on the CIPAC homepage after the meeting of their presentation during a CIPAC meeting. Only later, they will be published in a CIPAC Handbook and the respective Handbook is referenced.

(4) Superseded methods should no longer be used when the status of new provisional methods is changed to full.

Table: List of **Handbooks** related to CIPAC MT methods & **Year of Publication**

Handbook	Year of Publication
Handbook E	1993
Handbook F	1995
Handbook G	1995
Handbook H	1998
Handbook J	2000
Handbook K	2003
Handbook L	2006
Handbook M	2009
Handbook N	2012
Handbook O	2017
Handbook P	2021
