### CIPAC INFORMATION SHEET No. 364

June 2026

#### 1033 renofluthrin

Dear Colleague,

This is to inform you that Shogun Organics Ltd. is planning to organise a full scale collaborative trial on a method for renofluthrin isomers.

**Principle:** The isomeric composition of renofluthrin in the technical material is determined by high performance liquid chromatography on a ChiralPak IB, 250 ×4.6 mm (i.d), 5.0 µm column (or equivalent), with mobile phase composed of *n*-heptane/methyl *tert*-butyl ether (90:10 v/v) and UV detection at 230 nm. Quantitation is done by area normalization method.

**Scope:** It is intended to analyse 4 samples of renofluthrin technical materials (TC). Samples and analytical standards will be provided.

**Time schedule:** The collaborative trial is intended to be carried out between June 2026 and August 2026. Those who wish to participate should contact the organiser by 15<sup>th</sup> June. The results should be reported by the end of August 2026.

**Contact:**

Dr. Lutful Haque Khan  
SHOGUN ORGANICS LIMITED  
4th & 5th Floor, Block-A, NDM-1,  
Netaji Subhash Place,  
Delhi – 110034, India

Tel.: +91-9871751865  
E-mail: lutful.khan@shogunlifesciences.com

Yours sincerely,

L. Bura  
Secretary
